Entire experience was just amazing. They have well taken cared for horses. Extremely friendly guide who took us around and talked about the personalities of each individual horse. We got to feed them at the end as well. The trainer took our pictures and videos as we rode. All of us were wearing masks, including the trainer, the entire time. Loved this place and can't wait to take the rest of the family there.

We had a great time. Amazing and calm horses, everything that we could have asked for. Great prices and and extremely friendly staff. Very clean and professional, we felt very safe and well taken care of. I would recommend this to anyone want to go riding. Novice or experienced riders will be well taken care of. There is even and area to rest or have a picnic, so bring food and drinks, so that you can take your time.

What an amazing treat! The owner has a vision for what she would like to see happen. Her heart is 200% in this. She mentioned she has plans to make riding inclusive to all , even those of us with disabilities. She is an honest woman as we accidentally handed her more than we intended to(for a tip) and I called and she immediately sent the extra back to me. She didn’t have to do that for us but she so kindly did. She was understanding and I can guarantee you she has a new set of customers for life! I have numerous children that are loud and very high energy. Herself and her employees were so understanding. As if they didn’t skip a beat. The horses were kind and enjoyable. We can’t wait to go back! Thank you!!!! We had David for our main instructor. But each of the guys there were knowledgeable and friendly

The staff there were very nice and down to earth. I loved how they interact with their customers as if you've known them for years. They were very knowledgeable and made you feel like family. We had so much fun while we were out there. I would definitely plan another trip here. Thank you for the fun experience and I'm looking forward to being back soon with more family.

I brought my son here on this beautiful day. We had such a great experience, the trainer was so calm and patient with us. I think I was more nervous than my 5 year old son. We had such a wonderful time. Definitely will be in touch to take him again. And what a beautiful ranch and animals.
